

Reliable Supply of Food, Feed and Agricultural Commodities

We provide consistent supply from trusted producers, supported by full logistics coordination — from origin to final destination.

FAF Trading is an international trading company operating across Canada, Europe, and Eastern Europe, with growing partnerships in the Middle East, Asia, and Latin America.

The company is also expanding its presence in the United States market.

We specialize in B2B supply of food products, feed materials, and agricultural commodities.

Key Advantages:

- Direct sourcing from producers
- Quality control and compliance with standards
- Flexible delivery terms (FOB / CIF / EXW)
- Strong expertise in international logistics
- Experience with both containerized and bulk shipments

ABOUT US

FAF Trading is an international B2B trading company focused on the supply of food products, feed materials, and agricultural commodities.

The company is built on hands-on experience in agriculture, logistics, and international trade. We understand the full supply chain — from production and storage to transportation and final delivery.

Our goal is to provide reliable supply, transparent terms, and long-term partnerships.

We work with partners across Canada, Europe, and Eastern Europe, offering flexible solutions tailored to each client's needs.
